

ENVIRONMENTAL POLICY

IMG S.r.l. considers respect for the environment as an integral part of its business. For this reason the top management has established, implemented and maintained an environmental policy in accordance with ISO 14001.2015 which, within the defined scope of its environmental management system "Technical services for engineering and the environment. Geotechnical, structural, topographic and dynamic monitoring. Installation of measuring instruments and control systems. Geophysical and hydrogeological investigations ":

- is appropriate to the organization's goals and context, including the nature, size and environmental impacts of its activities, products and services;
- constitutes an important reference framework for setting environmental objectives, from which the individual environmental programs are defined to achieve the objectives;
- understands the commitment to environmental protection, including pollution prevention and other specific commitments relevant to the organization's context including the involvement of suppliers, partners and subcontractors in the selection of green technologies and solutions that take into account the LCA ;
- includes the commitment to satisfy its compliance obligations, through periodic audits of the first-party on the subject of legislative compliance;
- includes the commitment to the continuous improvement of the environmental management system for the improvement of environmental performance.

The environmental policy is:

- maintained as documented information;
- communicated within the organization by posting;
- available to interested parties by means of a contract attachment and on the website
